

Transportation-focused Generic Environmental Impact Statement
For
Transportation Impact Mitigation Strategies

t-GEIS

MONTHLY UPDATE
February 5, 2007

Over the last several months the consultant team for the t-GEIS has made progress on the following tasks:

- Analyzed the results of the web based Travel Survey of Cornell Commuters and prepared an executive summary describing the results. The executive summary will be available on the web site in the near future.
- Reviewed results of the web based Travel Survey with the Resource Committee.
- Analyzing livability and transportation impacts of the three hypothetical population growth scenarios.
- Considered preliminary results of the impact analysis with community transportation planners and TCAT.
- Developed preliminary mitigation measures for input from local planning officials.
- Shared information and coordinated potential mitigation strategies with the Cornell Master Plan consultant team.

Next Steps:

- Meet with community transportation planners, TCAT and the Resource Committee to review livability and transportation impacts and preliminary mitigation measures.
- Prepare for second round of neighborhood workshops.
